- 1. An elite school for gifted members of the FDJ is to be established on the premises of Karin Hall, former country estate of Hermann Goering on the Werbellinses (Y-09) north of Berlin. Herr Ernst Wildengel,* Director of the Berlin Hauptschulamt, intends to establish this school as a substitute for the school he maintained on the Scharfenberg Island in the Tegelersee until the British assumed control of that school in 1949.**
- 2. This school on the Scharfenberg Island was established in 1926 by the Social Democratic Party, and it gave excellent professional training. In 1933 the school was taken over by the Nazis who reformed the character of the institution according to their own ideas. In 1945 wildangel moved in and kept the school in operation until 1949.
- 3. The new school at Karin Hall is to be staffed by professional German teachers who have been indoctrinated in Russia. The type of teachers who will eventually make up the staff of the school is best represented by Dr. Kuhn (fnu). Dr. Kuhn was captured in 1943 by the Russians and brought to a prison camp. Having been a professional teacher, he was classified as a specialist during the screening of the prisoners, and from them on he lad a comparatively comfortable life. He was told to teach German in Russian high schools and was given access to the libraries. He was able to travel extensively in Russia although escorted by an interpreter. In 1947 Kuhn was returned to Germany. Nothing is known of his life between 1947 and 1949, and Kuhn does not like to discuss this period. In 1949 he obtained a position at the Schinkelschule, a so called Oberschule for boys, Berlin N 113, Carmen-Sylva 25-26. In contrast to his German colleagues he was well fed, well clothed, and enthusiastic about Russia and Communist ideas. After two months at the Schinkelschule, Kuhn was selected by Wildangel to teach at the new school in Karin Hall.

Comment: It is not clear why it was the British who took over a school which is located in the French Sector of Berlin.
